

# Blue-collar work ethic. Blue-chip technology.

At Intelligent Cleaning Equipment-ICE, constant improvement is at the core of our company culture. We push ourselves to create the best and most efficient floor care machines on the market, and we never stop looking for ways to upgrade both our product line and our customer service.

Our research, development, and management staff spans across the United States, Europe, and China. This international collaboration allows us to have the most advanced technology and efficient manufacturing in the industry.

The ICE team is full of industry and engineering experience, and our products reflect the focus we have in not only meeting but exceeding the floor care needs of our customers.

For more information on how ICE equipment can deliver exceptional results while saving time, money, and hassle, please contact your local ICE distributor.

We look forward to doing business with you.

## Smart Technology. Spotless Floors.
