

## HIGH PERFORMANCE CHEMICALS

# 733 LOW PH

## LOW PH DEGREASER

### PATENTED DESIGN FEATURES:

- **Positive emulsion** — spontaneously emulsifies greasy soil to improve cleaning—prevents dirt redeposit
- **Balanced alkaline builder blend** — enhances soil suspension, digests oil and grease, enhances rinseability—conditions cleaning water
- **Surface safety** — safe on most surfaces not harmed by water alone
- **Low scale formula** — to prevent alkali build up in hot and cold water pressure washers
- **USDA Rating** — A-1

### DIRECTIONS:

**Mechanical Cleaning Devices:** Pressure washers, steam cleaners, follow manufacturer's recommended dilutions.

**Typical Use Dilutions:**

**Heavy Soil:** 8-32 ounces to 1 gallon of water.

**Medium Soil:** 6-8 ounces to 1 gallon of water.

**Light Soil:** 4-6 ounces to 1 gallon of water.

*See product label for additional directions for use.*

### SPECIFICATIONS:

**Density (lb/gal):** 8.60

**pH (Conc.):** 9.6

**Clarity:** Clear

**Hard water tolerance**  
(as CaCO<sub>3</sub>): Greater than 1000 ppm

**Flashpoint (TCC):** None

**Refractive Index:** 1.3424

**Color:** Blue

### APPLICATION:

Industrial maintenance cleaner — floors, walls, machinery, hoods, sumps, vent systems through mechanical cleaning devices or mop and bucket.
